EXPERIENCE WIGHT RICHARDSON:A LOCAL WOMAN'S VOICE FROM THE 18TH CENTURY: THE REVOLUTIONARY WRITINGS OF EXPERIENCE

January 11 2:15-3:30 p.m.

We hear about men marching off to war in the 18th century to secure American independence, making momentous decisions at Town Meetings, and serving in town government. A few even attended college and entered the professions. But what about the women who made up at least half the population? What were their thoughts and actions? Fortunately, we can gain some insight through the diary of Experience Wight Richardson, who lived in colonial Sudbury (today Wayland and Sudbury) during the turbulent years that led up to the American Revolution. Jane Sciacca will share Mrs. Richardson's story in a discussion of women's lives in colonial times.

King's book, "The Joy of Getting It Done–10 Tools to Help You Stop Wasting Time and Start Managing It" is an outgrowth of this presentation, which she has given to many audiences over the years. The book was developed as a take-home resource for people who had attended her talks and wanted more information. Many of her clients and audience members struggle with procrastination, daunting projects, and the lack of ability to create workable routines in their lives. King tries to help them find many simple ways to make change easier. She hopes that attendees leave her talks feeling hopeful and empowered!

IRAN: PERSIAN GLORY AND ISLAMIC REVOLUTION
with Barry Pell
Tuesday, July 14 7:30 p.m.

With a history dating 2,500 years, the Persian Empire was the largest of ancient times, extending from Central Asia to north Africa. The legacy of this power and wealth is manifest in the stunning tiled architecture of mosques and secular mansions, the distinctively spiced cuisine, the arts and crafts including arguably the world's most beautiful rugs, and the diverse people who comprised the Empire as invaders or subjects. Iran's recent history is marked by religious rule following the 1979 Islamic revolution. Photojournalist and world traveler Barry Pell traveled nearly 4,000 miles through the country's magnificent landscape, visiting historic cities and monuments, and meeting with Iranian people who openly shared opinions about their lives and relations with America. This program will be accompanied by Mr. Pell's photography.

POWER TO THE PEOPLE!

...or at least to your various gizmos. The Library now has a public charging station with cables for iPhones, Androids, and iPads, as well as a USB port. You'll find it on the counter over the town materials near the color printer, facing the Catalog computers. Just plug in and hang around (and be sure to keep an eye on it. We can't be responsible for your electronics). Now if your phone dies just as you're heading outside to make that crucial call, you can turn right around and charge it to us!

FARE THEE WELL, JIM

As of July 7, Jim Zebrowski, administrative assistant extraordinaire, rides off into the sunset to a well-earned retirement. Jim began at the WPL more than a decade ago as a substitute custodian, moved on to the Circulation Counter (which he has continued to grace Monday nights), then became permanent custodian before finally—thanks to a varied resumé that included a stint as a professional organizer—ascending to the AdminAsst desk. This is one of the most complex and demanding jobs in the Library, which Jim has handled with unfailing aplomb. In addition to his supreme competence, we'll miss his good humor, easy manner, and stunningly tidy office. Jim's retirement plans include cooking, exercise, and "a whole lot of nothing," which is possibly his only pursuit at which he'll prove less than capable. He leaves with our gratitude and very best wishes.

GETTING THE MOST OUT OF YOUR VISIT WITH THE DOCTOR
Wednesday, September 16 7 p.m.

Good communication lies at the foundation of the patient-doctor relationship and is vitally important for good health outcomes. And yet, the ever-increasing pressure on physicians to do more in less time undercuts the quality of this communication, putting patients at risk.

Dennis Rosen, M.D. is a pediatric pulmonologist at Boston Children's Hospital and Assistant Professor of Pediatrics at Harvard Medical School.

HUMAN TRAFFICKING IN THE 21ST CENTURY
Friday, September 18 9:15-11:30 a.m.

The U.S. and the international community have adopted various treaties and laws to prevent trafficking, but to truly understand and combat the issue, they must find the root causes enabling traffickers to exploit millions of victims.

PLANNING FOR THE FUTURE OF OUR LIBRARY

The Wayland Free Public Library is too small, outdated, and needs significant remediation. The current building faces many challenges – flooding, parking shortages, the lack of space for youth of all ages, inadequate areas for study, and substandard staff work spaces. After nearly fifteen years of study, which includes this year's work of the Library Building Committee, the Board of Library Trustees have decided to explore the possibility of expanding and renovating the current building or building a new library on another site in the town.

In order to take advantage of a newly funded state construction grant program, the Trustees are asking Wayland citizens to support a feasibility study at Town Meeting on Monday, November 9. Completion of this study by October 2016 will make the town eligible to apply for a construction grant which could pay as much as 45% of the building costs of a qualified project.

Let's explore the options to expand our current building or build a new library.
